- School Cafeterias
- Walk-in Coolers/Freezers
- Testing Labs
- Office Entrances
- Storage Facilities
- Food Plants
- Packing Plants
- Hospitals and Clinics

INTRODUCING THE UNISOURCE AIR CURTAIN

BENEFITS

- Blocks dust, insects, odor, debris, smoke, and other pollutants not to enter inside.
- Keeps clean, better sanitary climate.
- Prevents loss of cool or warm air by keeping outdoor air from entering it.
- Saves energy by keeping desired temperature (lowers heating and cooling costs)
- Reduces loss of cold air from opening wall-in freezer and cooler.
- Helps to meet with NSF requirements (prevent insects from entering inside premise)
- Creates productive working environments
- Enables doors to remain open for convenient trespassing and attracts customers
