Follow the Leader™

The Artisan Bread Slicers comes with a "continuous slicing" function allowing to slice all the loaves in one go, without having to reload between each slicing operation.

Raised shoe and high-strength caster with brake.

As an optional feature, the largest models (520 and 600) can be supplied in a "double slicing" version, where one half of the slicing width is used for thin slicing, and the other for thick slicing.

A safety bar on the loading side protects the operator when placing the loaves.
